The right sidebar shows a grid of participant avatars with names: Anuj kumar (Presenting), Abhinav Singla, Saksham Jain, Drashti Chavda, shivani charan, Ritesh Thakur, Himanshu patil, and Gopal Sharma.

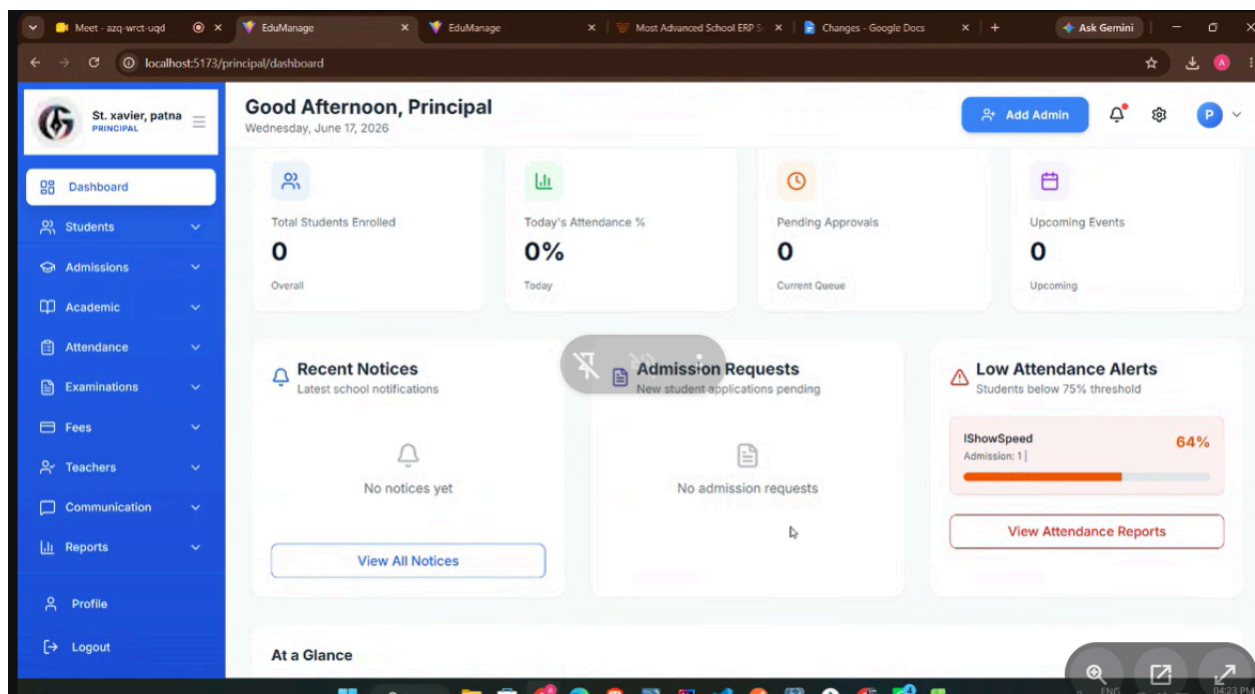

We have to mention the date in attendance report and also about the leave like half day or full day

Remove the both option from the filter from attendance report page

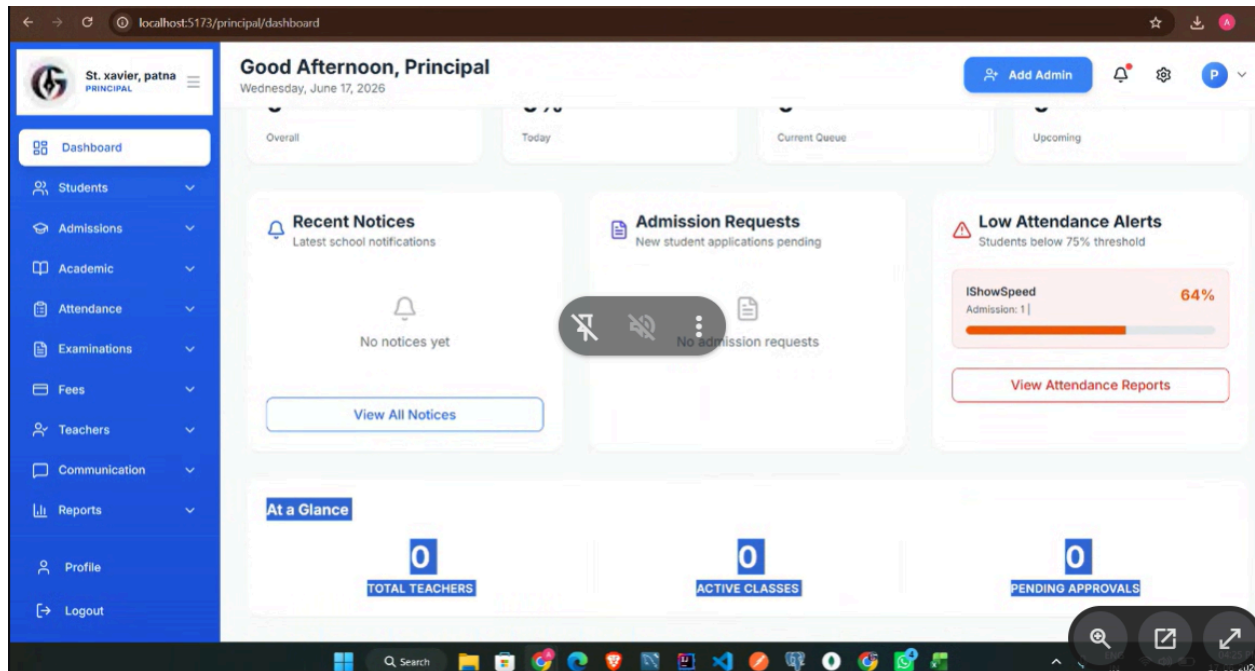

Todays attendance replace with total staff

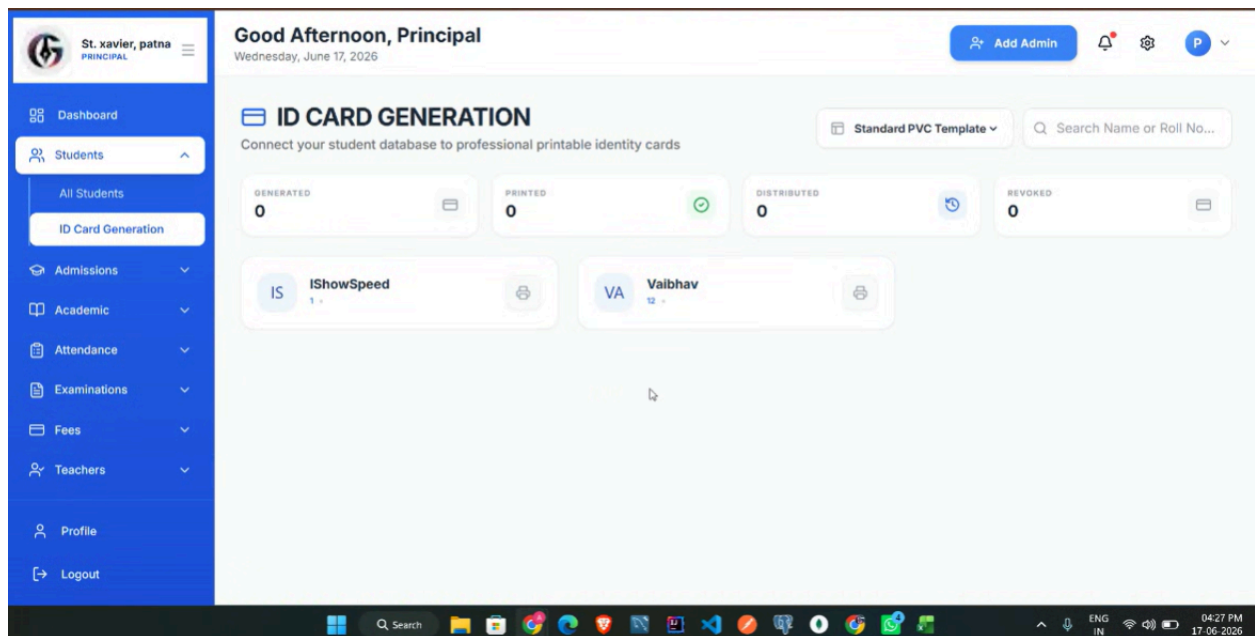

Pending approval card rename as student pending approvals

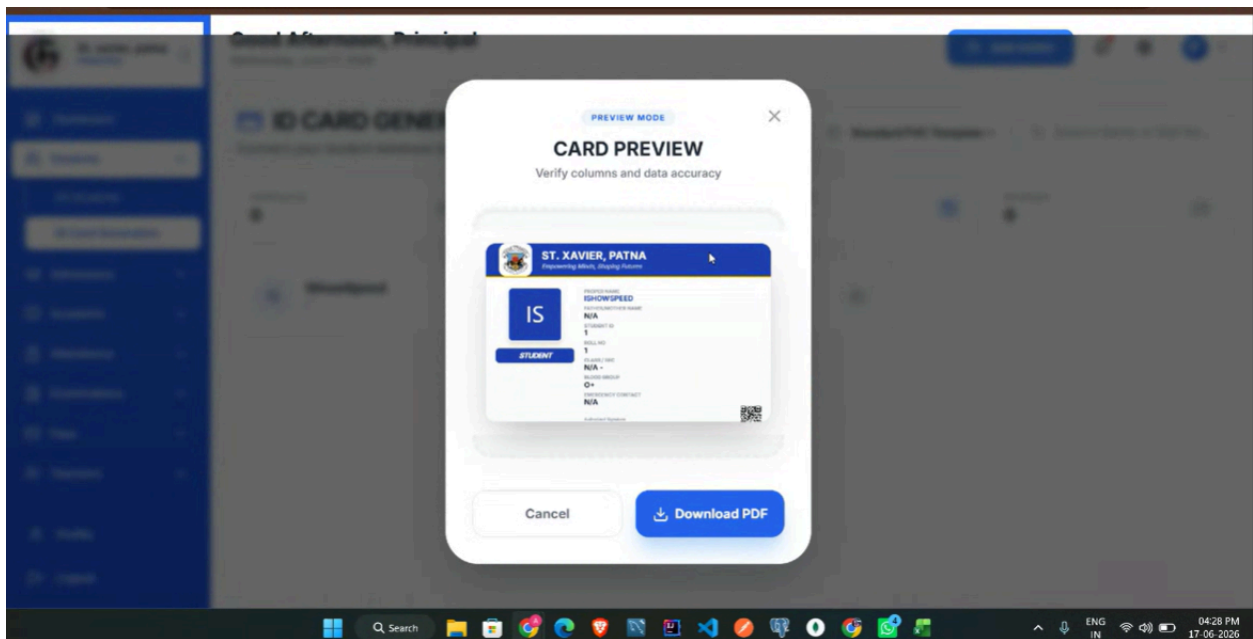

When we hover on low attendance card its changing and add a eye button showing parent name, class teacher name, class and section, total attendances showing out of 100

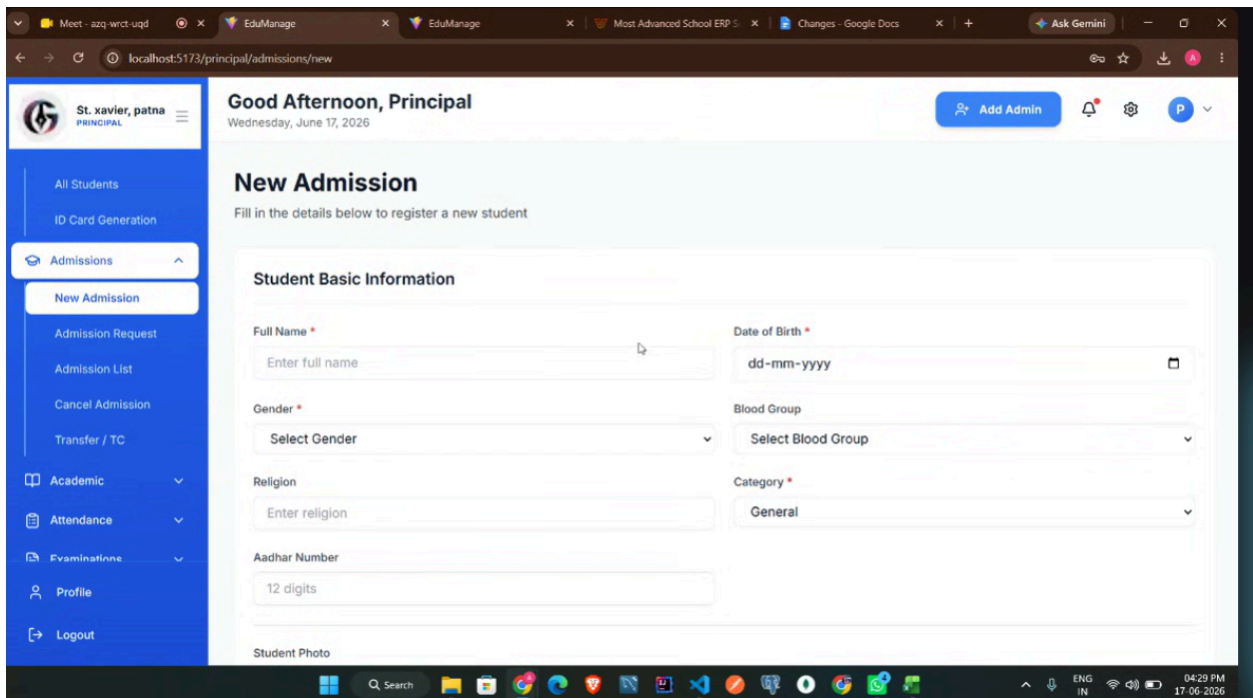

remove at a glance fully

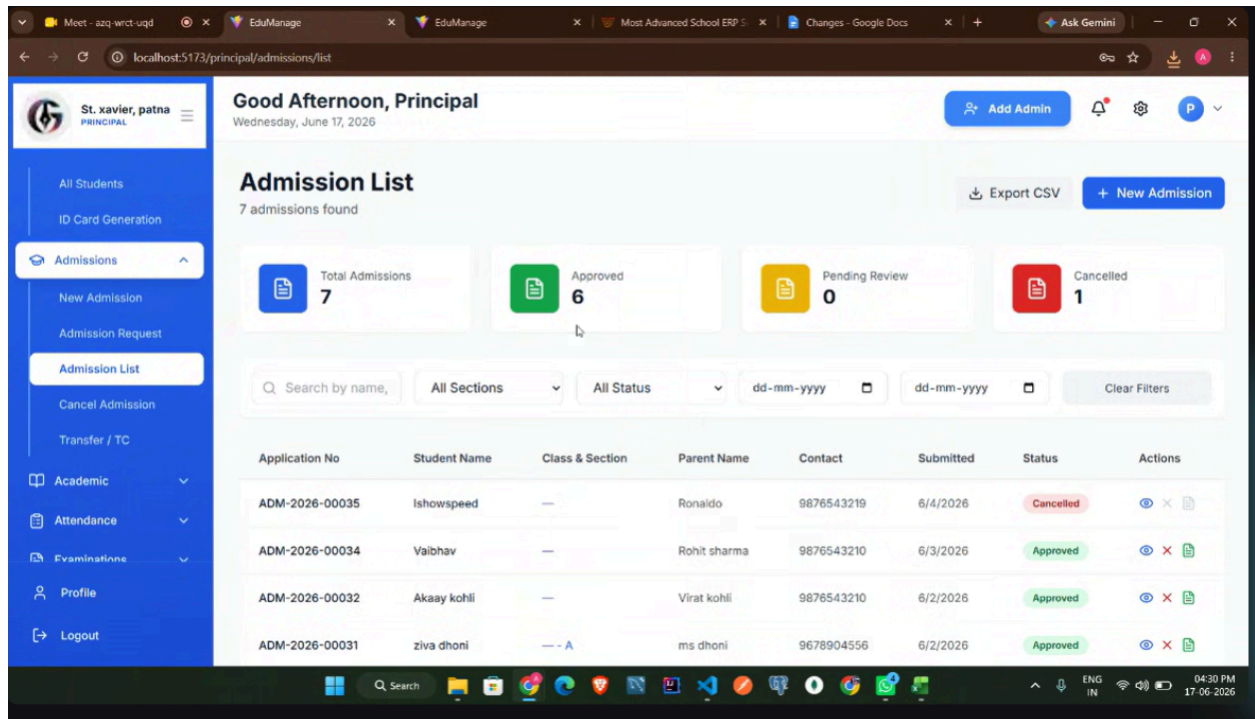

Add filter like class, section .

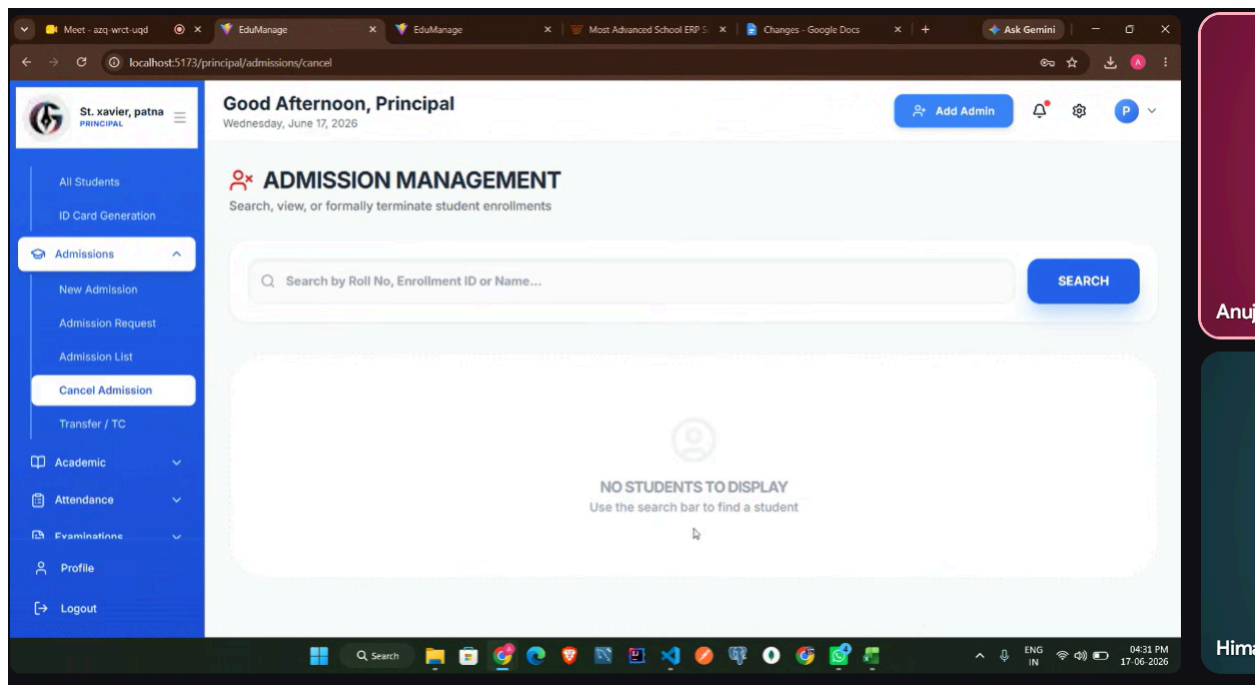

padding issue and improve it

Remove this page and add it to admin.

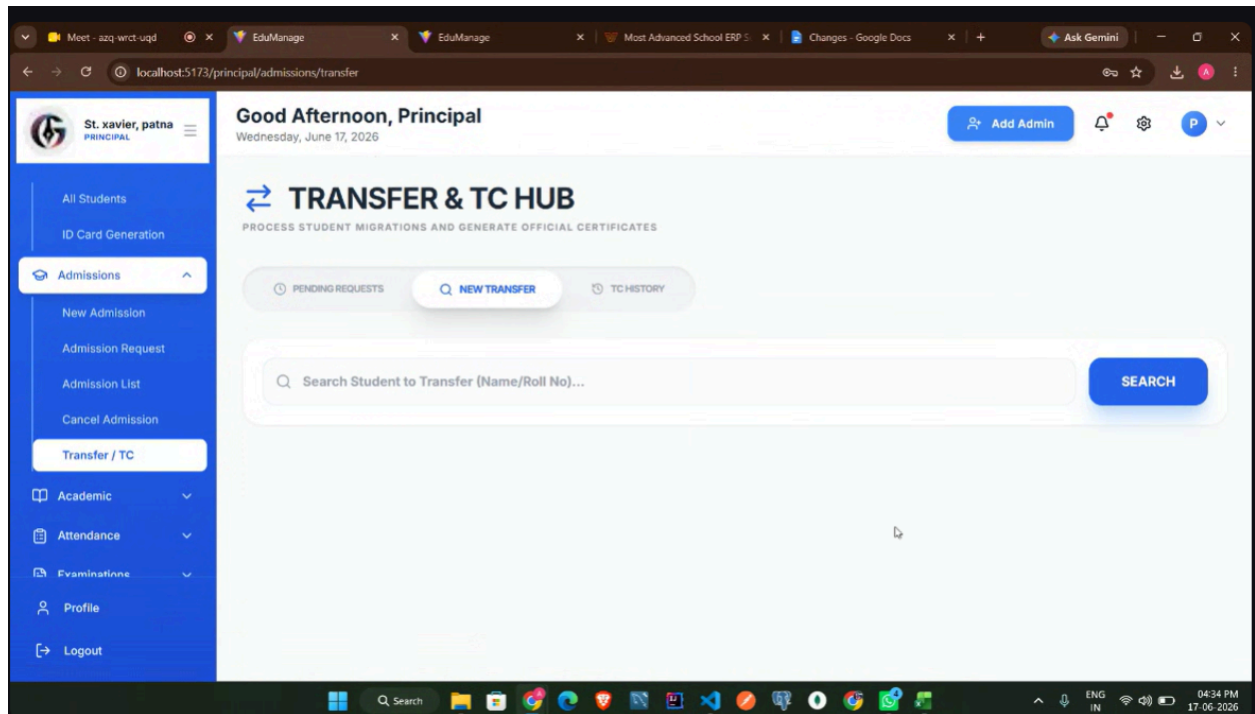

Remove 'new admission' button

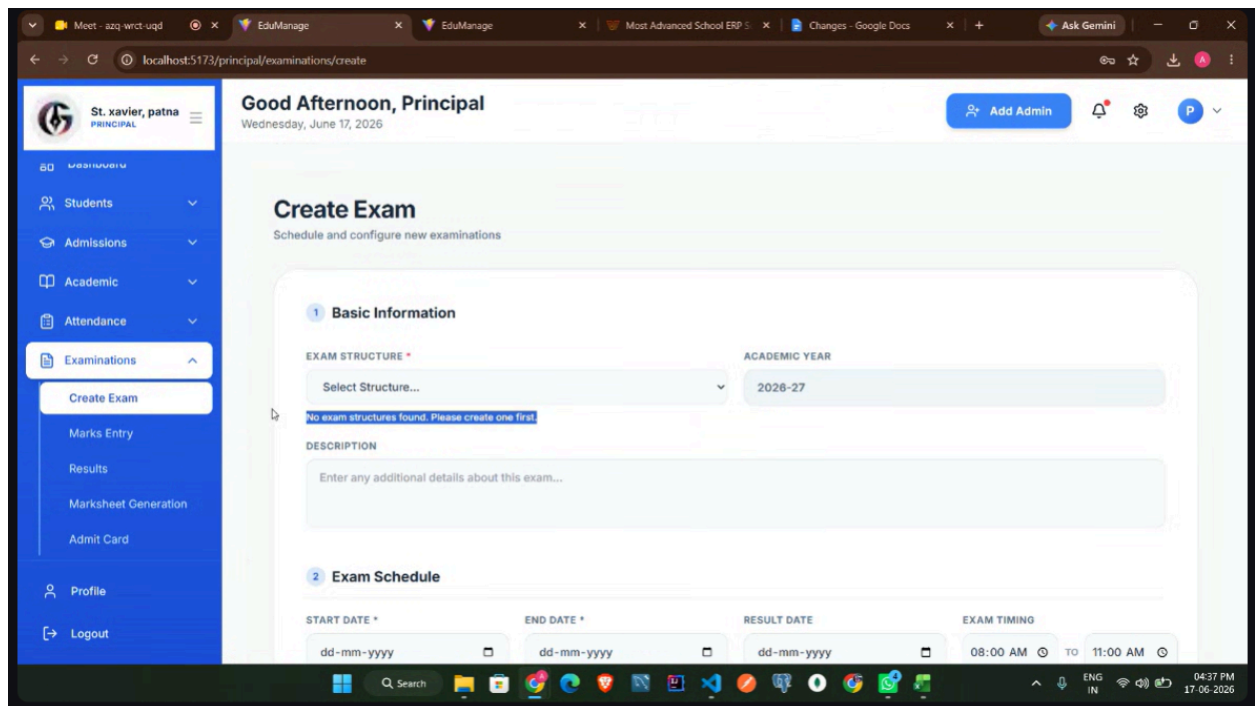

Add filter like claswise and section wise

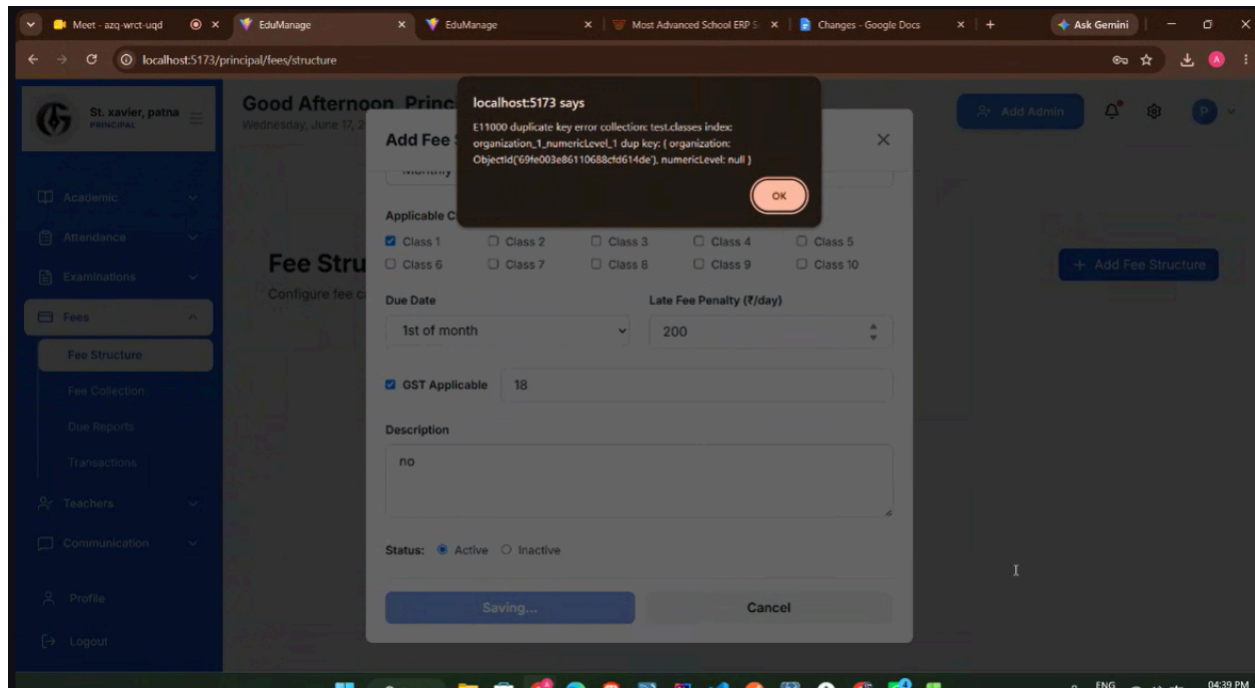

Add mail feature to send to parent when we cancel admission

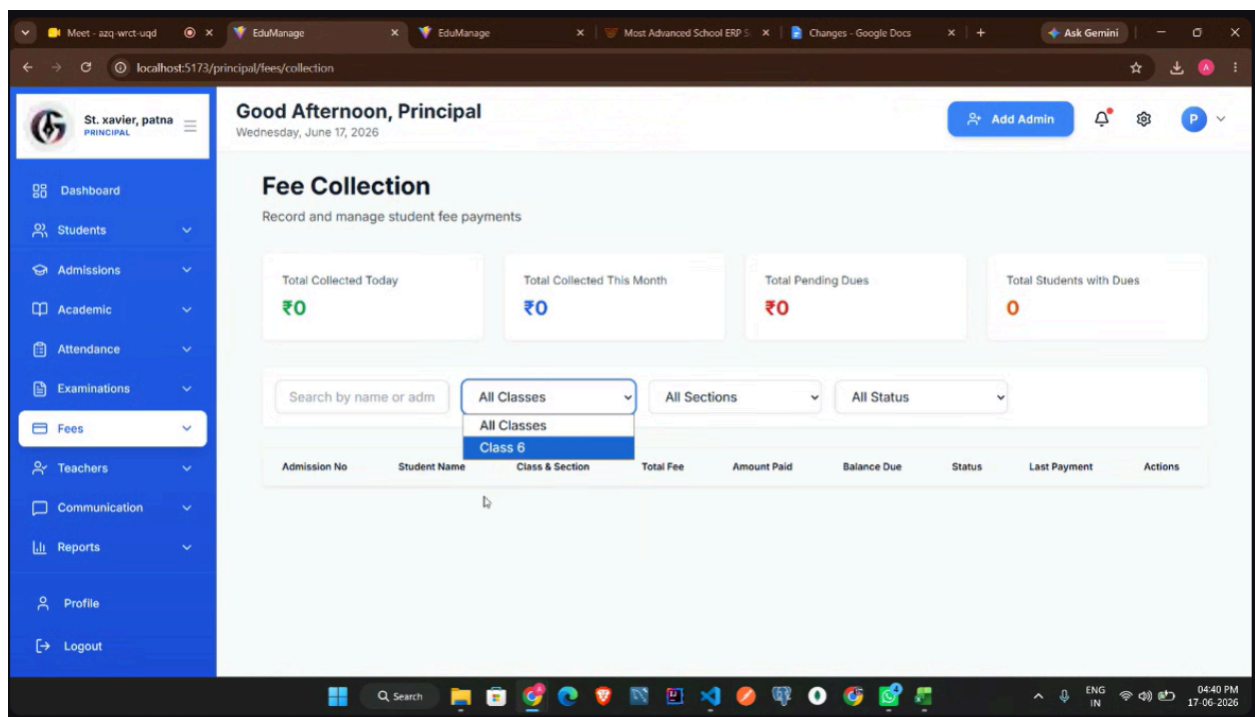

Add filter to show class wise and section wise students

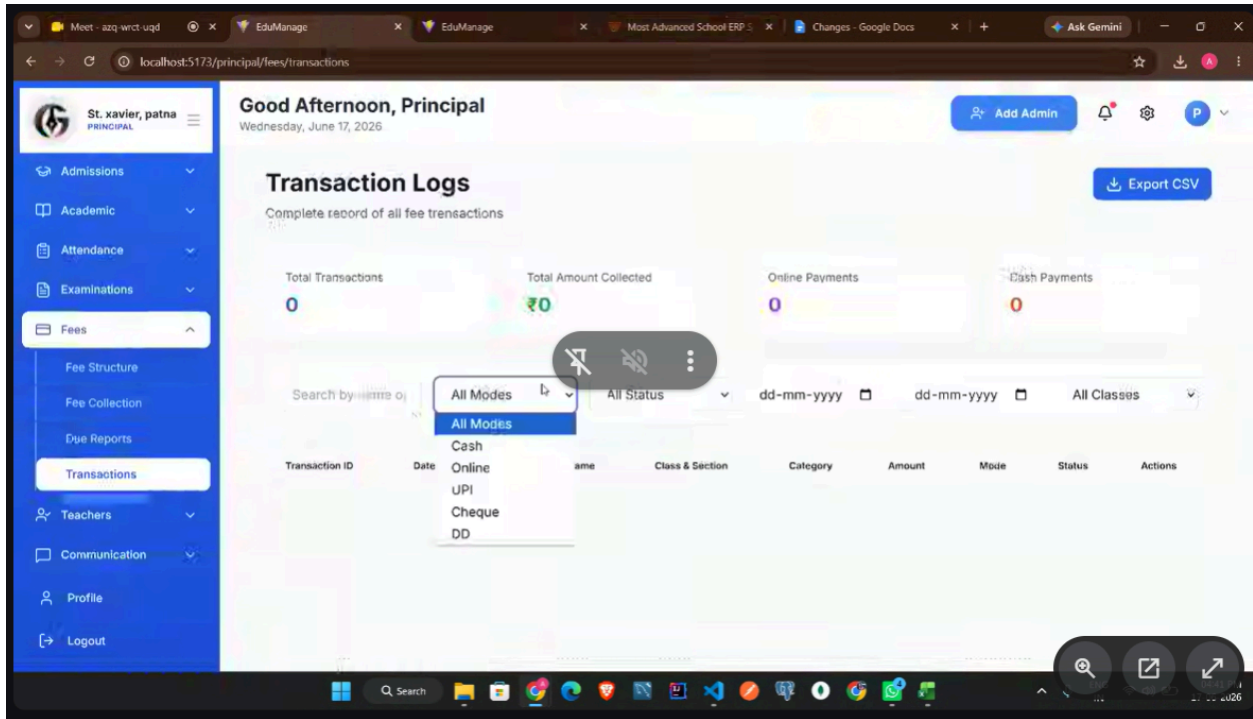

From where will i create exam structure there is no option to create it.

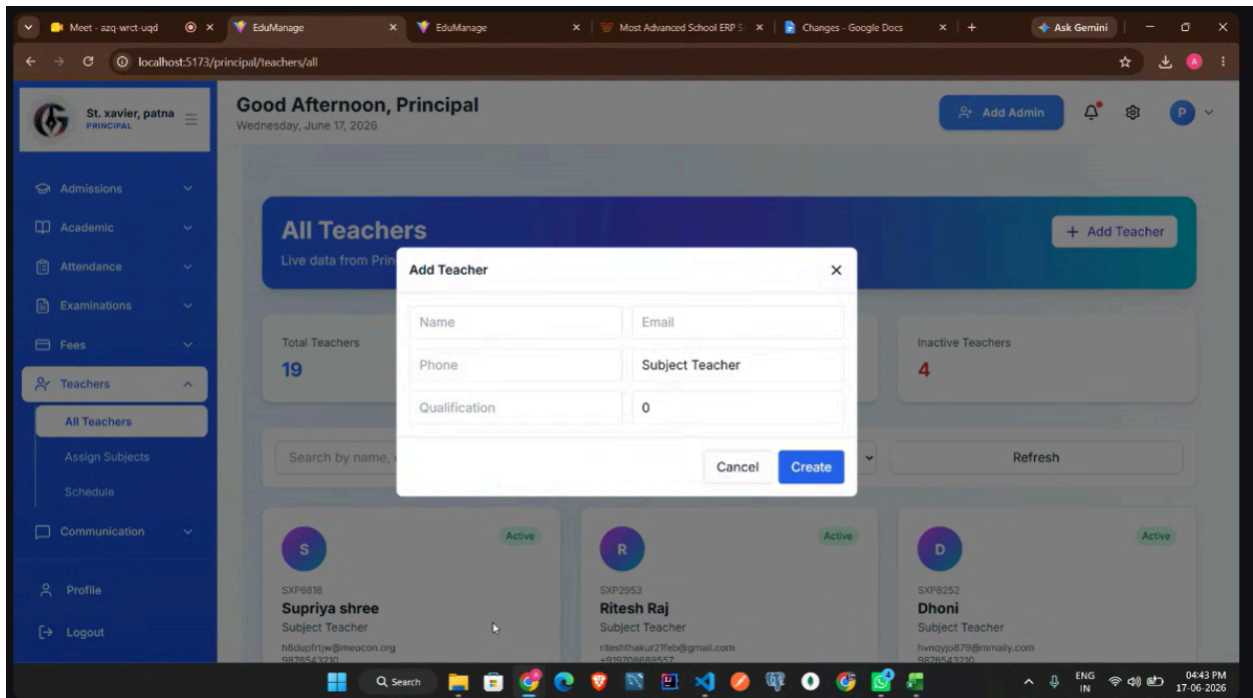

Solve this issue

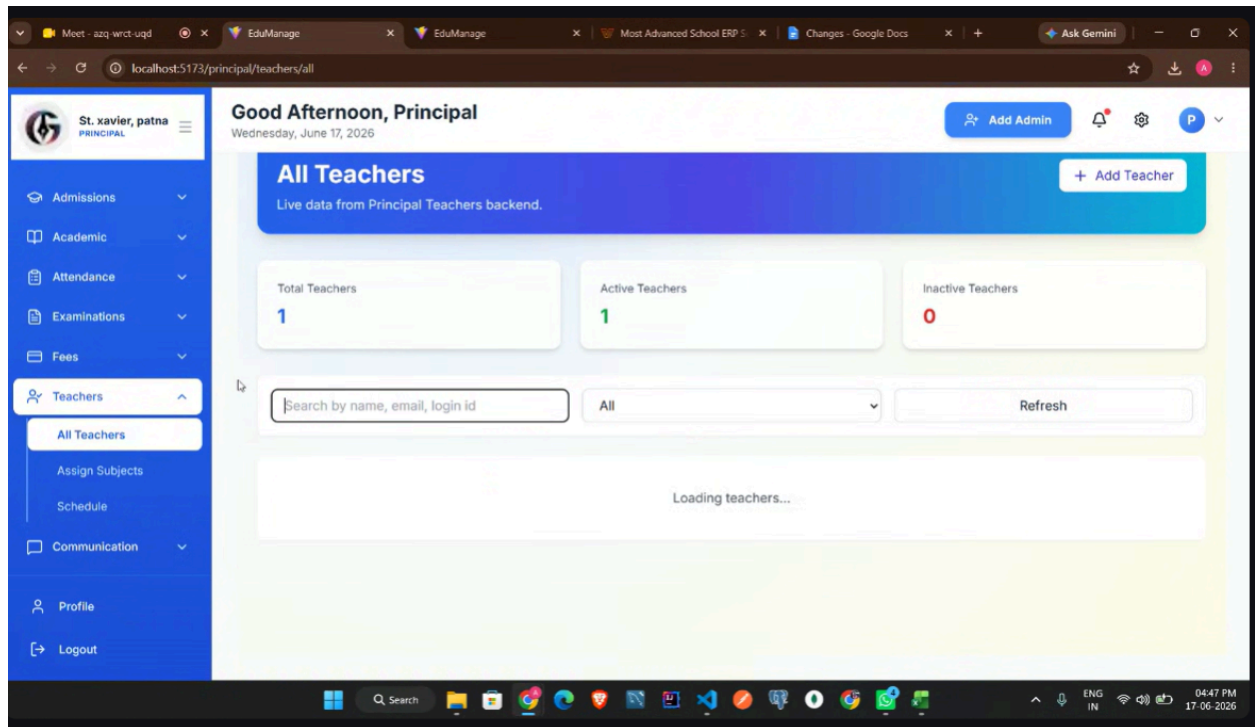

Classes wala data is not been fetched from the backend its raw

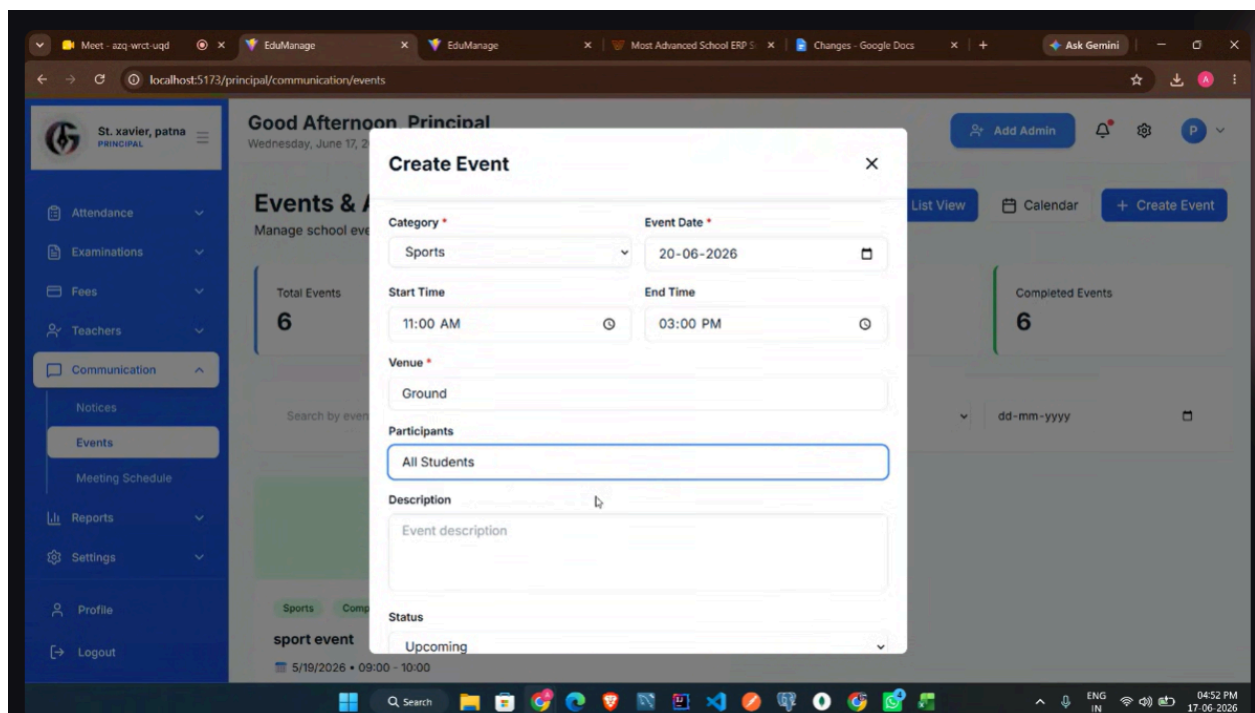

Same issue in due reports and in transactions.

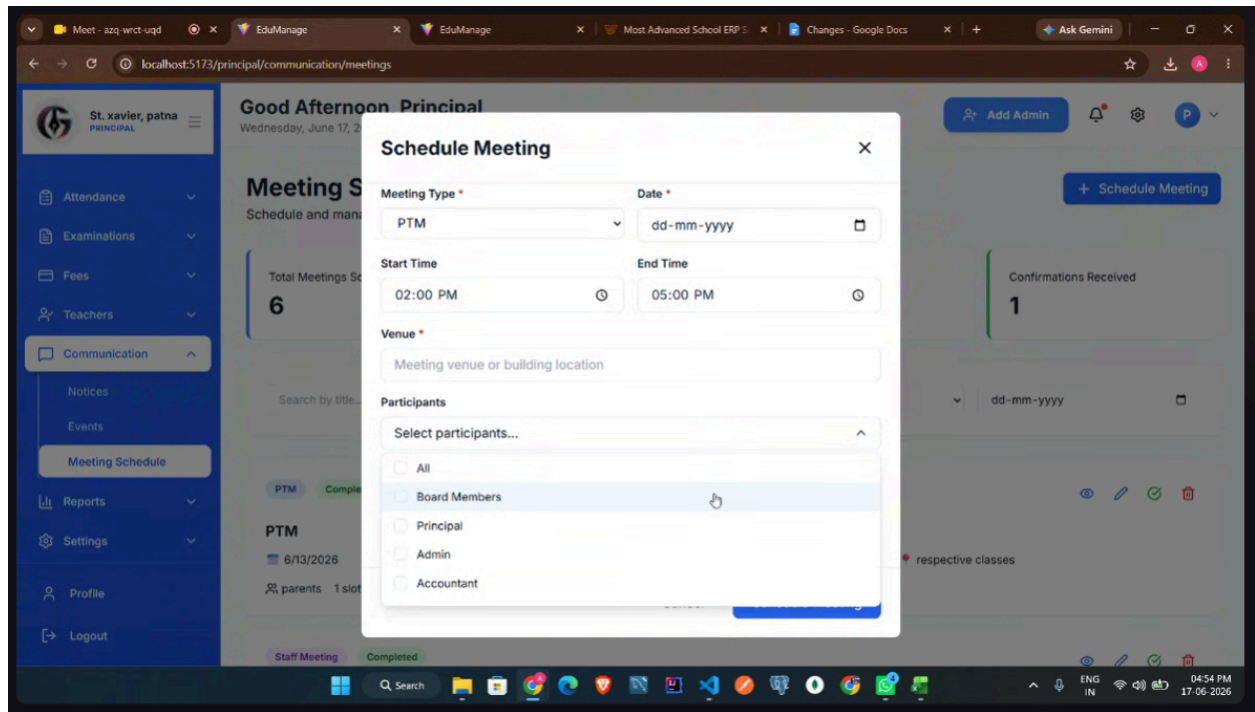

We have to improve the add teacher card
Like fields ko dikho kis kis chizon ki fields hai

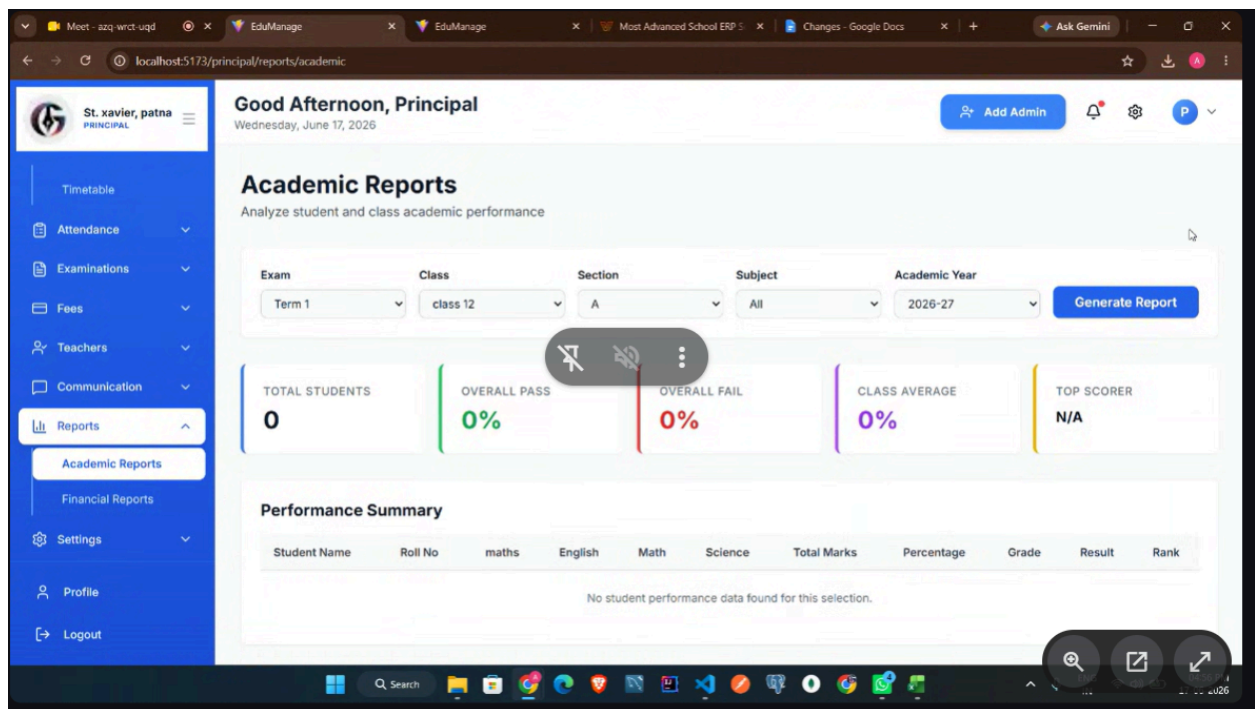

When we add teacher , mail nahi araha

Participants should be there in the tick box

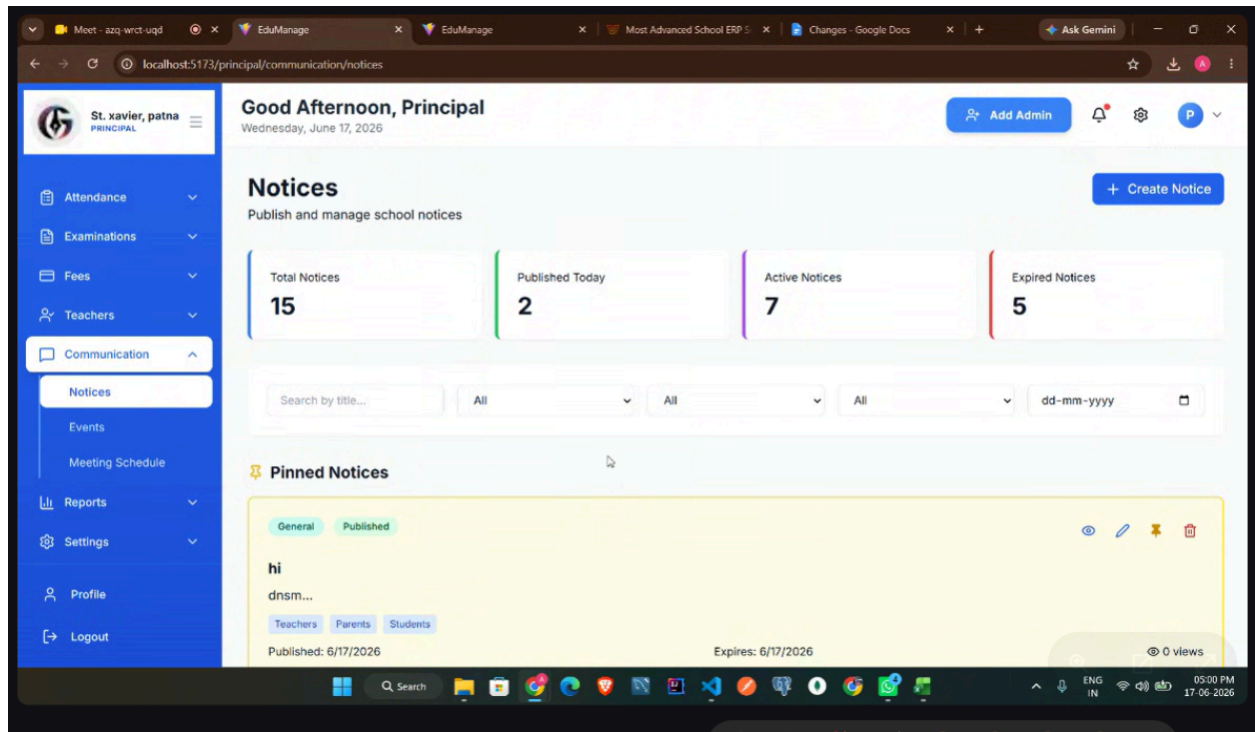

from this dropdown remove support staff and board members

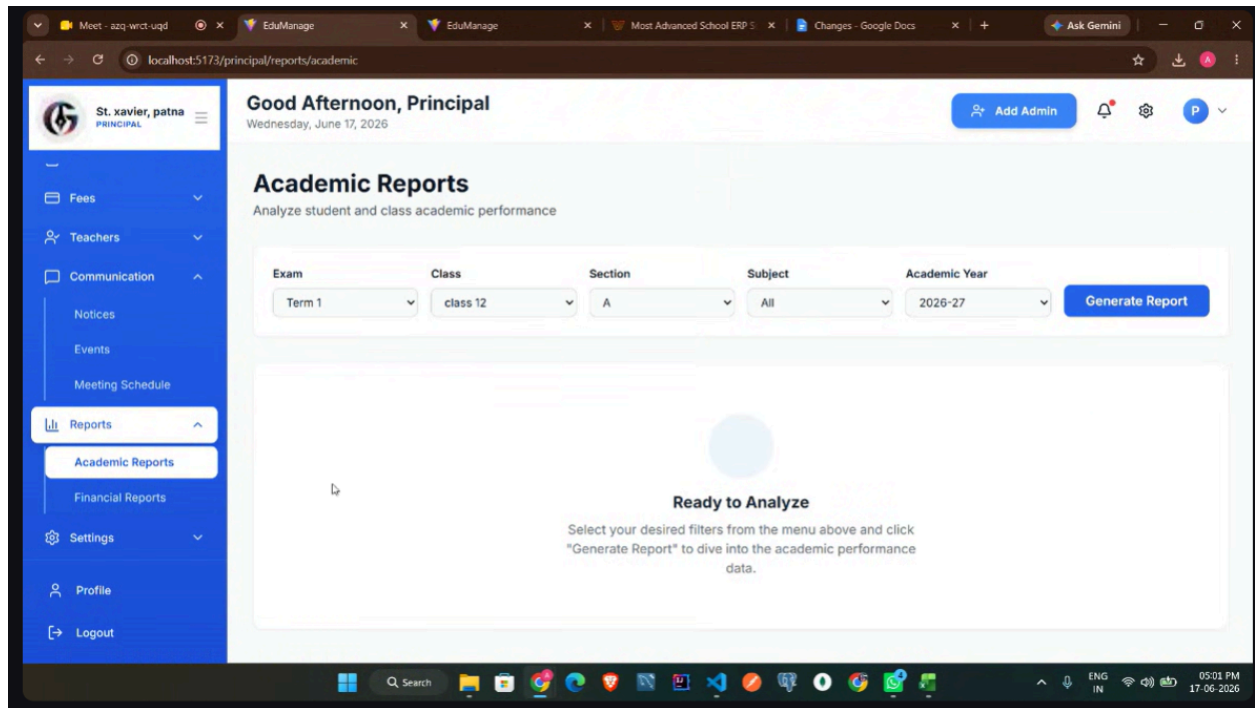

Add a button for exporting the reports

Also in the financial reports we have export button but the report should be exported in excel format so fix it

ADD A PAGE FOR STAFF LEAVES
ADMIN DEPARTMENT KI REQUESTS AYE SO CREATE A PAGE FOR THAT
ADMIN KI ATTENDANCE HUM LAGA SAKTE
STAFF RESIGNATION PAGE CREATE KARNA HAI
PAYROLL SUMMARY WALA PAGE ADD KARNA HAI

In the notices there should be option for escalation to the HQ

Here should be staff performance report.
